

## **FLYING COLOURS SECURES THREE GREEN CHALLENGER 850 COMPLETIONS**

**Peterborough, ON, Canada, August 4, 2009** – Flying Colours Corp., a global leader in aircraft completions and maintenance has been awarded three green Bombardier Challenger 850 completions from two different clients. The aircraft were recently re-located from Montreal, Quebec to Flying Colours main location in Peterborough, Ontario, Canada. The aircraft will undergo installation of custom executive interiors and new exterior paint as directed by the client. The completions will be finished at Flying Colours Canadian Center and their U.S. base in St. Louis, MO, JetCorp Technical Services Inc. All three aircraft are scheduled for delivery in 2010. “We have been actively expanding our green aircraft completion capabilities and are looking forward to procuring additional green aircraft in the future.” stated, John Gillespie, President, Flying Colours Corp.
