

GROWING IN SCOPE. KEEPING OUR FOCUS.

JETCORP

TECHNICAL SERVICES

Whether you are providing on-demand charter or are running a corporate flight department you simply cannot afford lengthy downtime for your aircraft. That is why, for over 25 years, operators of all sizes have put their trust in JetCorp's Component and Accessory Shop. We are unsurpassed in our ability to combine exceptional quality with quick turn times.

ACTUATOR OVERHAUL AND RESEAL A leader in the inspection, overhaul and resealing of Learjet and Falcon actuators. We offer a wide variety of services including 24 month inspections on Falcon tailplane actuators and Artificial Feel Units.

LANDING GEAR REPAIR AND OVERHAUL We specialize in 6,000-landing gear inspections and offer a full array of in-house services ranging from a complete overhaul to the resealing of key components.

WHEEL AND BRAKE OVERHAUL We can overhaul or reseal virtually any business jet brake system, as well as wheel overhauls and tire changes. Our experience and expertise in the inspection, repair and overhaul of wheels and brakes means we can offer you the shortest turn-times in the industry. Brakes can be done in as little as a day and most wheel sets can be done in two days depending on parts availability.

YOUR ONE-STOP COMPONENT AND ACCESSORY SOLUTION

We complement our component and accessory work with a variety of other specialized services including NDT inspections and filter cleaning. JetCorp's Non Destructive Testing capabilities include Magnetic Particle and Eddy Current testing, as well as Fluorescent Dye Penetrant and Ultrasonic inspections. All of our NDT Technicians are certified to Level II in each method. We also do filter cleaning and recertification.

THE WORK YOU NEED, WHEN YOU NEED IT

We realize that many times you are not able to bring your aircraft to us for maintenance. That is why we offer an array of on-site services including inspections and repairs.

Whether the work is done at our shop or yours, our work is not only fast it is completed with the greatest care and attention to detail. We know how much you depend on these critical parts. That is why all of our technicians receive on-going training and complement that knowledge by using the latest in test and maintenance equipment and tools.

Our attention to detail and commitment to your total satisfaction is unsurpassed. So when it comes to meeting your accessory and component overhaul and repair needs, put your trust in JetCorp's team of professionals.
